

DP3

Anticipated Tokenomics

DeltaP3 is a decentralized rendezvous point for procuring, coordinating, and financing public-private partnerships. \$DP3 is a fixed cap asset deployed on an Avalanche subnet which gives token holders the right to participate in governance.

Token Name	DeltaP3
Token Symbol	\$DP3
Total Token Supply	80,000,000
Presale Date	TBD
Token Price	TBD

Illustrative Token Distribution

Team

To ensure DeltaP3 is continuously improving its functionality, security, and overall return profile, a 10% token allocation is made for the core team. This allocation serves as an incentive for the team to grow its community as well as the quality and quantity of the projects the platform finances and hosts liquidity for. Although there is a founding team who will receive their pro-rata allocation (according to a vesting period), the core team is expected to evolve over time as new members prove their sophistication as capital allocators and community leaders.

Advisors & Strategic Partners

The DeltaP3 team and community will need as much help as it can get from leading industry experts to ensure our projects are socially and environmentally conscious, properly structured, compliant, and credibly endorsed. This allocation serves as an important incentive and/or reward system to those high-level contributors that disproportionately contribute to the success of DeltaP3, especially at its early stages.

Ecosystem Incentives

Used to incentivize all DP3 association and Due Diligence Committee duties via bounties/airdrops, reward Avalanche validators for securing the network and support various ecosystem partners who serve a core functional area within DeltaP3.

Investors

11% of DP3 will be sold through a series of private funding rounds. These funds will be used to develop the DeltaP3 platform (i.e., the application layer where one can invest, vote, and take part in the DeltaP3 ecosystem), deploy the native DP3 governance token, and ensure that upon launch, the product is optimized for safety and security. Each investor from these rounds will be subject to a minimum vesting period of 24 months. The DeltaP3 team has worked diligently to ensure all private investors share DeltaP3's stated goals and vision.

DP3 Association Treasury

This allocation will be primarily used for deploying exchange liquidity. This includes liquidity for project specific tokens hosted on DeltaP3. At times the association will strategically issue bonds as a function of treasury management. This allocation is DAO governed and will allow DeltaP3 to reach its full ROI potential as a stakeholder governed P3 platform.
